

The MARES Consortium and EuroMarine Network are pleased to invite you to the second

Mares Conference

Marine Ecosystems Health and Conservation

February 1st to 5th 2016, Olhão, Portugal

Call for abstracts has been extended with PeerJ Collection: submit your abstract online by 9th October 2015 at www.maresconference.eu/submit/abstract with opportunity to publish in PeerJ.

Early bird registration is now open: register online before the 29th October 2015 for reduced conference rates at www.maresconference.eu/registration.

About the Conference

The second Mares Conference on Marine Ecosystems Health and Conservation is a joint initiative from the MARES Joint Doctoral Programme (www.MARES-eu.org) and the EuroMarine Network (www.euromarinenetwork.eu). It presents a unique opportunity to bring together marine researchers, scientists, educators, and policymakers to address the main issues regarding marine ecosystems health and conservation. The conference will be dynamic and innovative, by providing a mixture of oral presentations, scientific exhibitions and training workshops.

Programme and Venue

The conference will be held at the Real Marine Hotel and Spa which, overlooking the spectacular Ria Formosa Natural Park, provides an ideal conference venue. Throughout the conference scientific sessions and exhibitions, six thematic subjects will be explored. You can find further details on the conference themes, keynote speakers, venue, and training workshops at www.maresconference.eu
